RED CROSS ACTIVITIES

Local Workers Making Hospital Supplies for Our Soldiers

News of serious import has come to us. Not from a far-off land or affecting distant peoples, but of trouble right at home, of danger on our own border.

We are called upon to discuss and decide as a nation something sorer than a war in Europe, something even more vital than international law. A war with Mexico looms before us as a terrible probability; a war which would of necessity bring with it all the responsibilities and results common to war everywhere, attended by the same or similar conditions and dangers of which we have read for nearly two years.

If our soldiers,—meaning our menfolk,—are called to the front and subjected to these conditions and dangers are we ready as communities, as a nation to furnish as soon as needed the necessary hospital supplies for the easing of pain, the saving of life?

And if we are not ready are we justified in putting off for another day the effort needed to put ourselves in readiness?

The National Red Cross has been designated by Congress and by proclamation of the President as the agency which must make preparations in time of peace to assist the medical departments of the army and navy in war.

A recent Red Cross circular says: "Base hospital units are now being organized under special instructions from the Surgeons General of the army and navy, and the public is earnestly requested to assist not only in the contribution of money, but in the preparation of the necessary supplies, especially those which can be made by volunteer workers. The Red Cross is anxious to have available a sufficient quantity of non-perishable goods to meet the first overwhelming demands should our country be involved in war."

"It has always happened that, when the needs of war arise, the means of meeting them are not available and a vast amount of suffering is caused which could be prevented by such provision as is now proposed. Stations for the storage of these supplies will later be established by the Red Cross in various sections of the country."

"It is suggested that groups or circles of volunteer workers be formed and that each group be made responsible for the preparation of one class of supplies."

For two winters many of the women of Slingerlands have worked under the direction of the War Relief Committee of the Albany County Red Cross chapter, making garments and hospital supplies to be sent to the sufferers in Europe. More than a thousand articles have been made since last November in our own village.

Now the time has come when, in response to the appeal from the American Red Cross, we should consider the needs of our own land also. To that end the Slingerlands branch of the Albany County chapter extends an invitation to every woman in the village to enroll as a Red Cross worker during the summer.

The next meeting will be held on Friday, June 30, at 2 p. m., at the headquarters generously offered by Mrs. H. N. Saxton and work will be started at once, along the lines and according to instructions received direct from Washington.

Membership in the Red Cross is one dollar a year, which entitles the applicant to the magazine of the society. But all women are urged to assist in the sewing whether members of the organization or not. It is suggested that each worker bring scissors and thimble.

The following articles are desirable for filling "comfort kits" for soldiers: Black sewing cotton, No. 30; white sewing cotton, No. 30; black darning cotton, No. 5; darning needle, needle case, black and white buttons, medium size; large thimble, blunt pointed scissors, cake of soap, safety pins, medium size; common pins, small comb, tooth brush, tooth powder, small round mirror, handkerchiefs, lead pencils, writing paper and envelopes, playing cards, collapsible aluminum drinking cups, pocket knives, heavy leather shoe strings, balls of strong cord, picture puzzles, plumbers' candles.

The "comfort bags" are filled with articles selected from this list and are much appreciated by the men, especially in the trenches.

Any contributions of this nature will be gratefully received at the headquarters of the Slingerlands branch, American Red Cross, and will be packed in "Box No. 6" as directed by the National Society at Washington.

Contributions of old linen or muslin, which have been laundered and boiled can be made up into surgical dressings, handkerchiefs, etc., and these also are very acceptable.

All contributions of supplies or material should be carefully wrapped, marked on the outside telling contents and name of giver, and sent to the residence of H. N. Saxton, Slingerlands.

Mrs. Van Derpoel Read Interesting Letters From Foreign Countries.

Mrs. Isaac Van Derpoel, chairman of the War Relief committee, Albany County chapter of the American Red Cross, spoke before the Slingerlands branch on Monday afternoon of last week at the Red Cross headquarters,

the home of Mrs. H. N. Saxton. Mrs. Van Derpoel had with her letters from all the foreign countries at war which she read. These letters go to show that contributions have reached destinations intended and were greatly appreciated.

Mrs. Van Derpoel spoke of the pleasure the little "comfort bags" gave the soldiers while in the trenches and of the many hundreds of requests for them.

Last Thursday evening Tawesertha grange held a rousing meeting at their new hall at Delaware and Borthwick avenues. Long before darkness fell farmers and their families within a five-mile radius of Delmar began to arrive. Some came in wagons, some in automobiles and others on foot, until the grounds near the hall were crowded with vehicles. For a full hour the new grocery store was the center of attraction, with the result that each sales amounting to \$104.38 were made. At times four clerks were needed to put up the orders.

At 9 o'clock the meeting was called to order by Master I. L. Kimmey, in the main assembly room on the third floor. After disposing of the regular routine business, section No. 1 of class 13 were instructed in an impressive manner in beautiful Labor and Culture degrees by the regular staff. Special business was next in order and under this head the grange initiated proceedings towards eliminating the grade crossing over the D. & H. tracks midway between Delmar and Elsmere. Beads doing away with a menace to the farmers of the community, its removal will benefit the villagers and all others who use this crossing. This grange proposes to cause the elimination of this crossing just the same as it caused the elimination of the crossing at Rockefeller's cut near Normansville in 1912. It will be a test of the practical value of a grange to a rural community and the outcome of the struggle will be eagerly watched by the entire country-side.

Because of the confusion of moving and the consequent heavy expense of buying new property, this grange will be unable to actively join in the community patriotic celebration in Delmar on July 4th. It is hoped by next year that we will be in a position to actively participate in this worthy enterprise. Before the close of the meeting plans were practically completed for the furnishing and remodeling of the assembly room.

The binder twine has arrived and will be distributed every Thursday evening. The flour has already been partially distributed. A full line of hoes, rakes, scythes, forks, etc., has been purchased and will be on display every night the store is open, which until further notice will be each Thursday evening.

67 members were reported present. The next regular session of the grange will be July 13.
